

2020

GRADUATE REPORT

Employment & Transfer Statistics

Dear Friend of Southeast Community College,

On behalf of the Board of Governors, the alumni, faculty, staff, and students of this excellent institution, I am pleased to present Southeast Community College's Graduate Report. The report includes graduation and employment statistics associated with 2020 graduates from all of our applied technology and transfer programs.

The report includes the total number of graduates and degrees granted, the number employed within the training-related field, the number continuing their education, the percent employed within Nebraska, and the average starting salary for SCC graduates. In addition to graduation and employment statistics, the report includes the colleges and universities to which our graduates transferred, as well as the employers and starting positions associated with each of SCC's program graduates.

This report represents one of our many efforts to evaluate the success of our programs and the degree to which we are accomplishing our mission.

SCC is committed to its mission of providing the highest quality applied technology and academic education opportunities to its 15-county service area. SCC's 2020 graduates had the added challenge of successfully earning their credentials during the COVID-19 pandemic. These graduates exhibited incredible resiliency, determination, and flexibility. SCC embraced new technologies and instructional and academic support approaches to ensure students were able to graduate in a timely manner despite the challenges associated with the pandemic. SCC had more than 1,200 graduates in 2020, with 92% employed or continuing their education immediately after graduation. Ninety-one percent of our employed graduates are working in Nebraska. Remarkably, these graduate statistics are consistent with past graduate data. The 2020 graduates had approximately the same success and retention rates as past graduating classes. On behalf of SCC, I congratulate our faculty, staff, and graduates for this incredible accomplishment.

SCC has a long history of ensuring that employers have access to qualified graduates who have the skills needed for successful and productive employment. SCC continually seeks to align its programs with the specific needs and requirements of employers and transfer institutions. We are committed to meeting the educational needs of our students, employers and the community.

Sincerely,

A handwritten signature in black ink, which appears to read "Paul Illich". The signature is fluid and cursive, with a large, stylized "P" and "I".

Paul Illich, President

Southeast Community College

The mission of Southeast Community College is to empower and transform its students and the diverse communities it serves. The College provides accessible, dynamic, and responsive pathways to career and technical, academic transfer, and continuing education programs. Student success and completion is maximized through collegiate excellence, exemplary instruction, comprehensive student support services, enrichment programs, and student-centered processes. SCC is committed to a proactive and evidence-based approach that continually assesses and responds to student, community, and employer demand for higher education.

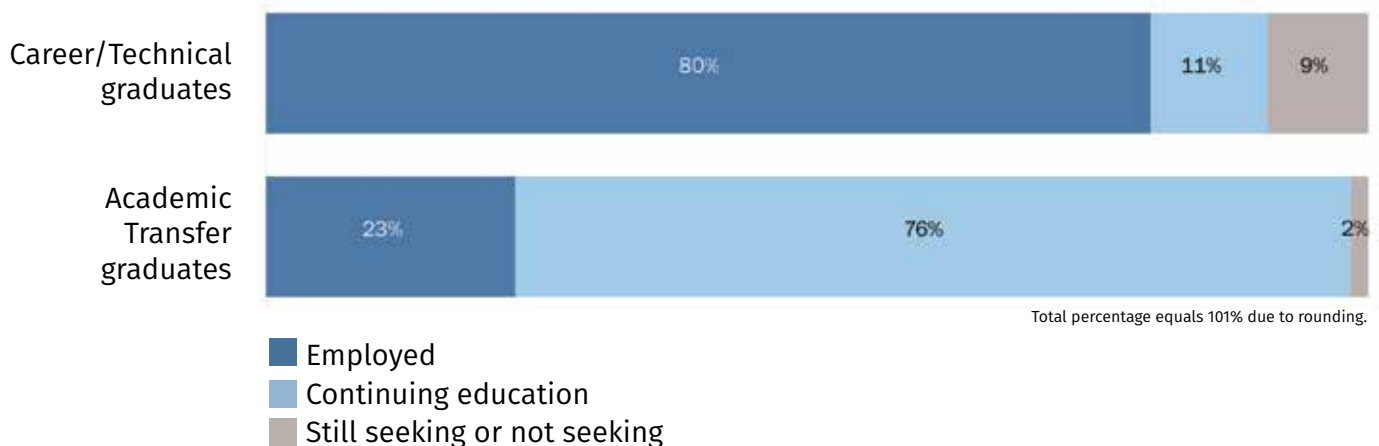

92% SUCCESS RATE

SCC graduates who are employed or continuing their education.

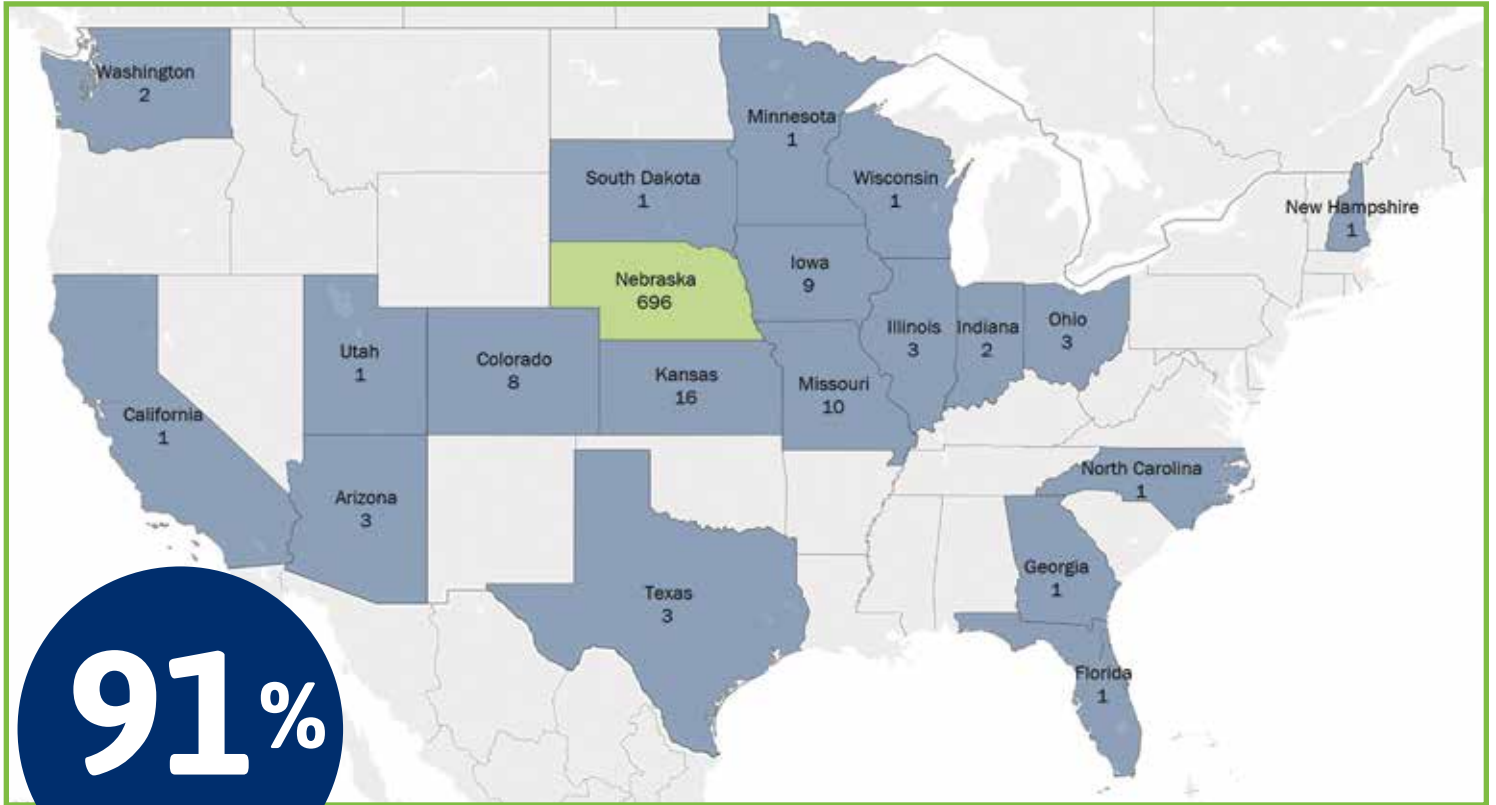

Of 1,221 graduates during the calendar year, only 8.4% of those who responded were not employed or continuing their education.

Employment and Transfer

A large majority of the 922 graduates from Career/Technical fields who responded are employed (80%), and a large majority of the 115 Academic Transfer graduates who responded are continuing their education (76%).

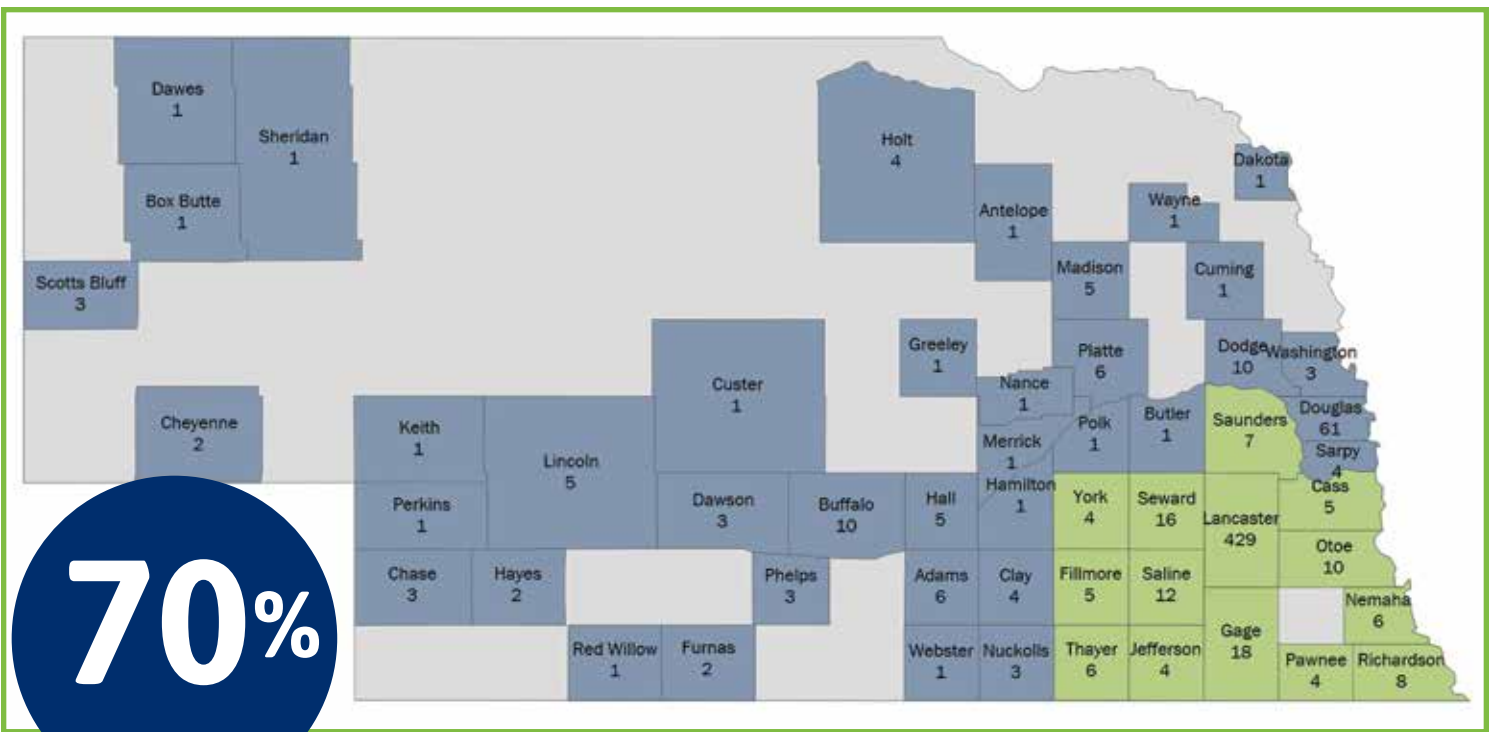

STATE AND REGIONAL IMPACT

91%

of employed graduates are working in Nebraska.

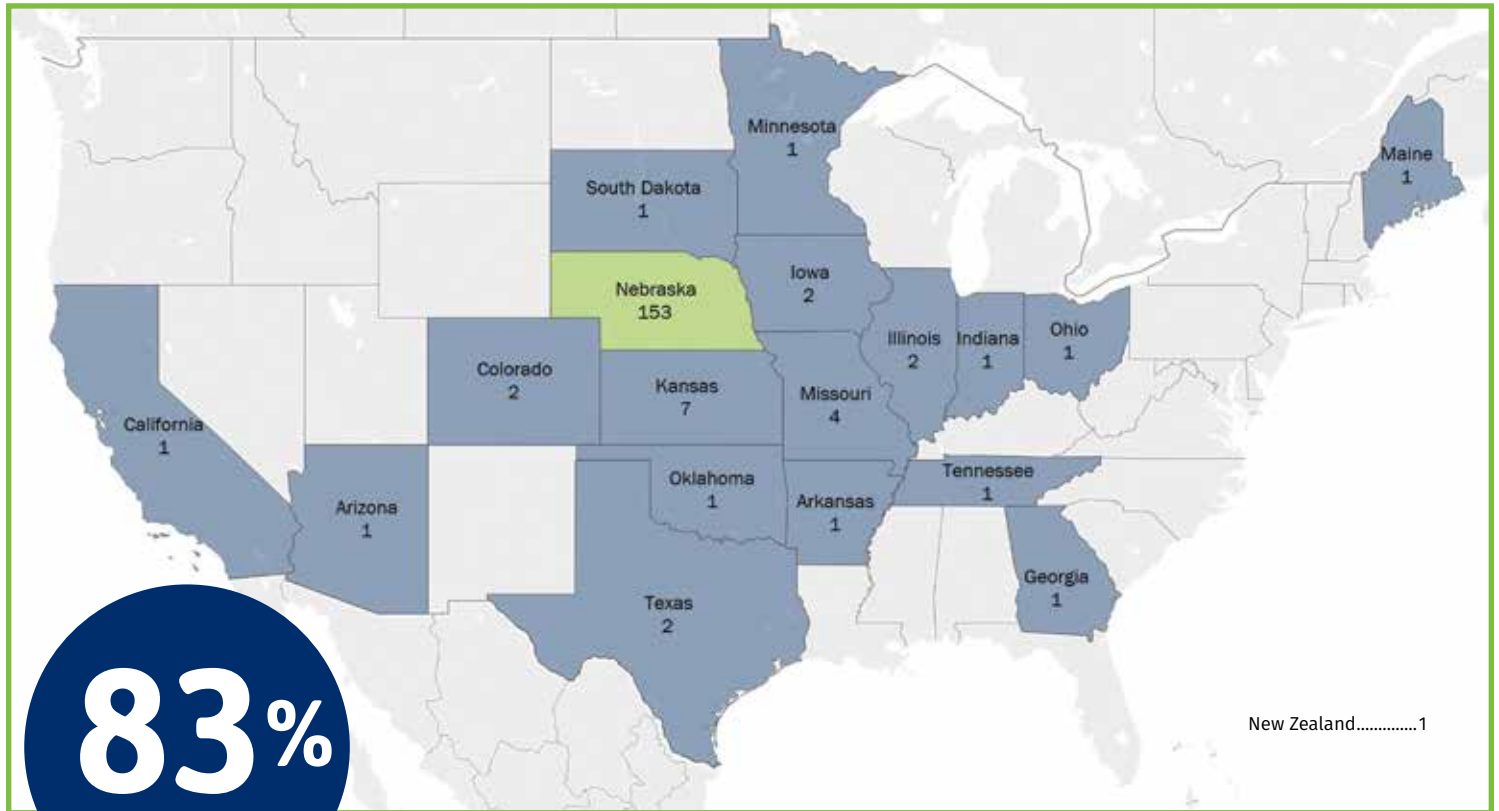

Total employed: 764

70%

of employed graduates are working in our 15-county service area.

CONTINUING EDUCATION

83%

of graduates who are continuing their education are doing so in Nebraska. *Total continuing education: 184*

Gathering Data

Information about the post-graduation status of SCC graduates was collected directly from the graduates at or near the time of graduation and from the National Student Clearinghouse. The information was collected by the Career Services Offices at the time of graduation through personal conversations, classroom visits, telephone calls, emails, mailings, texts, and social media. The Career Services Offices reported that it was more difficult to get in touch with students in this year of COVID-19, so the response rate is lower than normal.

Wage and employment information has been self-reported by graduates for their first job after graduation. Self-reported continuing education status was supplemented with information from the National Student Clearinghouse.

Thirteen (13) graduates completed multiple degrees during 2020. All percentages and location-based counts use the unique number of graduates. The data table is based on the number of degrees. In the data table, the graduates who completed multiple degrees will be counted multiple times, once for each degree they received.

- **Number of degrees granted during 2020: 1,242**
- **Number of graduates during 2020: 1,221**
- **Number of graduates who responded: 1,035**
- **Response rate: 84.8%**

2020 Programs of Study	Number of degrees granted	Employed in training-related job	Employed in non-training-related job	Continuing education	Still seeking, Not seeking, No response	Percent employed in Nebraska	Average Starting Hourly Salary	Average Starting Annual Salary

All salaries are based on a 40-hour work week unless noted. Salary statistics reflect certificates, diplomas and associate degrees. The graduates in the "Still Seeking, Not Seeking, No Response" column are not included in the percentage calculations.

(A.A.) = Associate of Arts
(A.S.) = Associate of Science

¹ Salaries were not reported for a large enough sample and have been omitted for confidentiality. Values may not add to 100% due to rounding.

² Pay plans and benefits vary to include commissions and bonuses.

³ Must complete 640 hours of a state-specific Administrator-in-Training program.

⁴ Transfer degree.

⁵ No graduates in 2020, and data is taken from the 2019 report.

⁶ To obtain a sample large enough to report, salary information is based on graduates from 2019 and 2020.

⁷ To obtain a sample large enough to report, salary information is based on graduates from 2018, 2019 and 2020.

⁸ To obtain a sample large enough to report, salary information is based on graduates from 2017, 2018, 2019, and 2020.

Academic Excellence Center Beatrice Campus

A new 52,000 square-foot building is one of the newest additions to Southeast Community College's Beatrice Campus. The \$19 million building includes classrooms, health and science labs as well as a multi-functional room that can be used for many purposes. Students from Health, Arts and Sciences, Business, and Criminal Justice programs will utilize the various classrooms.

"The Academic Excellence Center is a first-class building, bringing together multiple disciplines across the SCC Beatrice Campus," said Bob Morgan, Beatrice Campus Director.

Health Sciences Facility Lincoln Campus

The \$25 million Health Sciences Facility opened in January 2021. The 81,909 square-foot building includes 14 state-of-the-art health science labs, eight classrooms, student collaboration spaces, faculty offices, an innovative area simulating a real-life medical setting, outdoor learning spaces, and more. Sixteen Health Science programs are now located in the new facility.

SCC President Dr. Paul Illich said the College graduates around 2,000 health sciences students every 10 years, students who will be able to fill many jobs throughout Nebraska.

“I believe this will be one of the highest-quality health sciences facilities in the country,” he added.
